

Flash Column

PROJECT OVERVIEW

Our dedicated vessel team recently fabricated a flash column for a valued client. Thornton Engineering's knowledge, experience and careful planning ensured that the project was completed successfully.

The scope of work included:

- Mechanical design and detailing
- Material supply
- Fabrication
- Non-destructive testing (NDT)
- Hydrotesting
- Blast and paint
- Cladding and insulation
- Transportation to site

PROJECT SPECIFICATION

Year	2019
Dimensions	38m (H) x 4.6m OD
Design Pressure	1035 / -80 kPa(g)
Material	AS1548-PT460NR / A516-70N
Classification	Class 1B
Thickness	16mm / 25mm / 32mm
Classification	113.3T
